

I am concerned that a change from FM translator service to Low Power FM will force listener supported K-LOVE 89.5 off the air. Please do not do this! K-LOVE is a wonderful Christian FM station that I, my family and friends listen to daily. I find the programming inspirational and inspiring. I can't conceive a day without it. There is no other choice in our community for this programming. I am disgusted that if I listen to other radio stations in El Paso, I am forced to listen to vulgar, coarse and profane language. Our community needs K-LOVE. It is in the public interest for me, my children, my friends and their children to have a popular radio station that we know will not offend and bombard the listener with unacceptable language and content. I hope you find my comments helpful as this decision is made. Thank you, Bob Jones
